

# DailyPay's On-Demand Pay Digital Wallet Solution.

Employer

DailyPay's Digital Wallet Solution for on-demand pay gives employees instant access to the money they've earned, eliminating the traditional payday and creating more financial equity. It's a one-of-a-kind solution as it is the only wallet that automatically refills as employees earn money every workday.

We're empowering everyday Americans to access their money on their terms to avoid late fees, overdraft charges and payday loans.

## Key Benefits

Reduce your employees' financial stress and improve their overall health and well-being.

Attract and retain more employees.

Rest easy knowing that we provide full end-to-end support at every stage of our partnership - from implementation to daily management.

## How Does It Work?

The DailyPay Digital Wallet Solution creates a frictionless on-demand pay experience by allowing employees to access their earned pay as they need it, 24/7/365. It's powerful and flexible. Our solution allows employees to send their earned pay to any bank account, debit card or prepaid card, and use it to pay bills, build savings, invest, buy goods and services, and more.

### Features for employees:

#### PAY

On-demand pay is available to employees 24/7/365. They can access up to 100% of their earned pay and transfer it to a bank account, pay card or debit card of their choosing.

#### SAVE

Employees can save their earned pay in a savings account of their choice, before payday, at no cost.

### Solutions for employers:

#### CYCLE

Payroll teams can disburse payments anytime, anywhere, eliminating the hassle of issuing off-cycle payroll payments, saving time and money.

#### REWARD

Managers can incentivize and motivate employees with instant and compliant bonus awards.
